

## RYMSA RF QUALITY DECLARATION

The management of RYMSA RF declares the Quality is one of main priorities at our Company activities. It is our aim, involving all the interested parties, to reach the highest level of Quality in every area so that goods and services provided to our Clients comply with all relevant technical and legal requirements and regulations.

RYMSA RF considers that excellence in Quality is of utmost importance, both as a competitive factor of the present as well as of the future challenges of our Company.

To this end, management of the Company has a firm commitment to use all necessary resources to strengthen the management, control and development of processes, to train our staff, to improve the channels of communication, the risk analysis and the implementation of indications with the goal to make a permanent analysis of the documented information of the Quality System facilitating the continuous improvement

The Quality System has been developed according to **EN ISO 9001:2015** standard requirements. The full range of processes put in place in the Company to conform to the ISO Standard, and the activities that entail, are contained in the Quality Manual and in all other documents referred to in it

It is the responsibility of all stakeholders of RYMSA RF to correctly apply the Quality Manual procedures. In this respect, all our staff follow the requirements of the Quality Manual so as to encourage Quality culture.

RYMSA RF CEO
